RE: Carl Martin/Computer Technology Specialist, L.L.C.

I have worked with a number of computer/network vendors and consultants over the years and when considering the major upgrades to our systems that we had in mind, I knew I was making a decision that had to be right the first time. As we began this process, we learned of Carl Martin of Computer Technology Specialist, L.L.C.

Carl evaluated our situation, made his proposal based on what we needed, not what he wanted us to do, and gave us the best, most affordable pathway to ensure our goals were met.

In terms of installation, Carl was there when promised, every time he promised, and worked hard to minimize disruption and downtime. The work was done speedily, and our systems work even better than I could have hoped. When we do have problems or questions, Carl handles these promptly and adeptly.

Given some of the experiences I have had in the past, it is a pleasure to work with someone committed to his customers and determined to operate his business with integrity. I remain very impressed and I will continue to look to Carl and his company for our future technology needs.

Sincerely,
